

I'VE BEEN THINKING.
I've been thinking, I've been thinking,
What a curious world we're in,
Men are sleeping, eating, drinking,
Just as they have always been—
Deaux are strutting, dandies quizzing,
Misses toiling night and day,
Boys are sporting, girls are frozzing,
Grandmas fidgeting away.
Tom is crying, Mary singing,
Jack is laughing merrily,
Snow is flying, tea bells ringing,
These have music sure for me;
Peasants toiling rich men riding,
Starting with a lordly phir,
Rogues through every crowd are gliding,
Zounds, how queer a world it is!
Marrying, some in marriage giving,
Others like the world of old,
All but me are feasting, living—
Would that wives were to be sold!
Others have their dears in plenty,
And their bosoms heave with love,
I've had chances nineteen, twenty—
But I dare not one improve.
Brokers shaving, sheriffs dunning,
Politicians pull your sleeve,
Printers scolding, wits are punning,
Jail-birds begging for reprieve,
Preachers warring, idiots ranting,
Bacchus, too, hath devotees,
Yonder wretch your wife's gallanting,
What a very fool is he!
Lawyers sporting, clients list'ning,
Doctors prating of their skill,
Patients groaning, school-boys whistling,
Striving all old time to kill,
Pedagogues of science telling,
Milliners of pretty things—
Lovers stroll with bosoms swelling,
List'ning while the night birds sing.
Clouds are lowering, tempest howling,
Friends suspecting, foes are glad,
Children screaming, mistresses scowling,
Merry bosoms now are sad.
Presto! they are gone forever,
All is gay as it has been,
Sunbeams shine, the girls—oh, never!
What a curious world we're in!

An Efficacious Hair Powder—rape of the
Locks, etc.—We heard an anecdote the other day of old Shaffer, of whom so many stories are told, and who years ago used to "cut up such shines" in and about Boston, which we believe has never been published. No matter if it has, we give it in our own way. Some years ago, one very hot day in summer, a number of blacks, wishing to wind off "Bobbation Day" with a dance, went over to Roxbury, and wanted Shaffer to let them have his hall for a ball in the evening. "Dis a selct company, massa Shaver, of gemmen and ladies of de first society, and we want tings done up nice." "Oh certainly,—certainly; but, Stigo, I can't let you have the hall except on one condition." "Well, what dat, Mr Shaver?" "Why, it's the fashion now to have the hair powdered, and if you'll all dance with your top pieces whitened, so as to be genteel, you may come, and I'll find the powder to boot." "O goshee! certainly Misher Shaver! dat be just what we wanted to suggest. We want to take de shine off your common dancers." "I'll suit you then to a hair," said Shaffer. "Things were thus all settled, and at the appointed time some fifty or a hundred blacks, in high glee and spirits, drove up to Shaffer's, with their Duciness, dressed up in all the colors of the rainbow. The 'gemmen' were taken into a separate room, where Shaffer had placed three or four persons with lots of powdered lime, with which to set off their curly tops in the "most approved fashion." The lime was put on "pretty considerably thick," rubbed in, &c., and when their heads were all "finished," as the writing master says, they went to work in the hall, and for about four hours put the double shuffle and pigeon wing into the floor "about the slickest." It was a very hot night, and of course the company of dancers perspired freely, and for some reason or other the perspiration appeared to take place about the head more abundantly than elsewhere. This of course produced an immense scratching with the hands in the region of the upper story. "Holloo there," bawled the fiddler, "Miss Phillis, what be dat lock of wool on de floor! gosh—guess all we black birds be goin to shed our feathers." And the fiddler ceased fiddling, laid down his instrument, and began to scratch and pull away with both hands upon his head, "like all possessed." Off came his hair in admirable profusion. What was the matter! The dance ceased, and all the dancers came to a halt. The scratching and pulling of hair had become general. The poor fellows when they got tired of scratching themselves, bent over to have their heads rubbed by their "sweethearts," who administered such consolation with the ends of their fingers and the tops of their voices as they could. The "gemmen" began to perspire more freely than ever both from fatigue, and from fright, for their hair began to fall out so fast and abundantly upon the floor, that they soon presented the appearance of bald-headed dancers. "Massa Shaver, what in de Lord's name dis mean—what dam powder dis here. We be all dropping off at de head." But Shaffer, having got the pay for his tickets, was for a long time among the missing. The blacks soon found out the mystery, however,—that when they began to dance and perspire, the lime began to slack, which in a little while took their hair off, and tickled their skin rather uncomfortably. They soon after departed much lighter than they came. "Old Shaver said he suit us to a hair," quoth old Stigo, "but guess next time we know enuff to wear wigs."
N. H. Eagle.

ocean. Nay, more: ten thousand souls like yours might colonize on the point of a cambric-needle, and live for fifty years increasing in a ratio equal to the Irish peasants;—and should they then have a civil war, the vanquished party would have mountains and valleys to retreat to, ten miles off. Why, man, neighbor Gripe's soul is as much larger than yours as a saw-mill-log is larger than the thread of a spider's web, and his can scarcely be discerned by the aid of a microscope that magnifies a million of times!—Nouentity, where are thy children?

O LOVE, THY POWER!—The following loving literary curiosity was written, as we learn from the Bangor Post, by a young bumpkin after three months' schooling only.

Sept. 24th, 1836.

I now tak this op its nite to rite these lins to you to let you no that i am wel; and hop that that these lins will you my find you my der; injoying the sam; i want to se you my der love; and have a soshal tok with you my der love; for my feeling was very much hert when i come away my der love; i want you to tak gook car of your self till i se you my der i want to her from you very much and no how you do my der love. For i have thought much of you; and i want to here where you ar Mis — my der love i have herd from the foks to the west and tha ar all well and i calculate to leve in five weeks if noth in happins.

my pen is por and my ink is pale, but my love to you nev ver shall fail: there rose is read there virilint is prity and sobeyou; ther virilint is blew ther pink is prity and sobeyou: Mis —

May the lord rest in you—upon you and all about you Mis — my der love.

BIRGE, BRACKETT & CO.

Iron, Steel, Nails, &c. &c.
HALL & TOWNSLEY have just received a large and general assortment of Iron, Steel, and Nails of all kinds and sizes,

Thompson's New Truss.
Unexampled Success.
WHERE this Truss has been introduced, it is taking the place of all other Trusses ever invented. Persons who have tried the most approved kinds heretofore made, will lay them aside and purchase one of these invaluable Trusses.

The following recommendation has just been received from Dr. Hall, of Vergennes.

This Truss, he says, is a great improvement over any thing that has hitherto been invented in the form of a Truss. The superiority of the above article does not consist in the ease and safety by which they are worn only, but by proper adaptation will speedily effect a permanent cure of the Hernia. Numerous certificates to the above facts might be added, were it necessary, but a slight examination of these Trusses will convince any one that the great desideratum has at length been obtained, and this formidable disease is no longer a dread. I think therefore that all afflicted with Hernia or Rupture, and having a just estimate of the danger of delaying attention to it, will procure a Truss immediately and be cured.

A. HALL.
Vergennes, Oct. 1836.

I hereby certify that on commencing having this season, I was afflicted with a Hernia, which became so painful that I was obliged to quit work. I applied one of Thompson's Patent Trusses, with which I was enabled to labor daily, and found no more inconvenience in wearing it than in wearing my stockings. In three weeks I was perfectly cured, laid aside the truss, and have had no recurrence of hernia since.

GEORGE A. HALE.
Brattleboro, Aug. 1836.

Mr. Thompson, Sir—The Trusses begin to go well, having sold several. Having myself tried several trusses of various kinds, found no relief. But putting one of yours on the first of April last, in four weeks was entirely cured, and have not had occasion to wear any since; and I do not hesitate to say that in my opinion they will be the blessing of God, effect a permanent cure. Yours in haste,

L. M. AMSDEN.
Greenfield, Sept. 1836.

For sale, at wholesale or retail, at the Store of D. B. THOMPSON, Brattleboro.

Furniture and Chairs.

N. B. Wanted immediately, a few thousand feet of seasoned Sitkum for Bedsteads. Also, a few thousand feet 3-4 in. Bass Boards.

ANTHONY VAN DOORN.
Brattleboro, June 16, 1836.

DAVIDS' WRITING FLUID.
THE BEST INK KNOWN.
PREMIUM awarded by the Mechanics' Institute, at their Fair, held at Castle Garden, N. Y. September, 1836.

The superiority of this Fluid over common Inks, may be summed up under the following heads:—the greater readiness with which it combines with the paper; the ease with which it flows from and follows the pen, never clogging it as other inks do; the superior blackness which it acquires, free from any admixture of brown; the clearness with which it writes, free from that muddiness which is the prevailing fault of all common Inks; its bright and distinct color when first written, whereas thin inks are generally pale; also, its drying so quickly, &c. &c.

Be careful to use this Fluid in separate stands, and by no means mix it with common ink. Shake the bottle well before pouring out, and its property of resisting attempts to obliterate it will be more fully insured.

Prepared by Thaddeus Davids, 222 William st. and 143 Maiden Lane, New York, and for sale at the RECESS, Brick Row, Brattleboro.

Books and Stationery.
JUST received, a full supply of SCHOOL, CLASSICAL and BLANK BOOKS. Also, a complete assortment of Paper, Quills, Knives, Ink, Soap, Pocket Books, Wallets, Silver Pencil Cases, Thermometers, Water Colors, &c. &c.

WILLISTON & TYLER.

MORUS MULTICAULIS SEED.
THE subscriber, as agent for Samuel Whitmarsh, offers for sale the seed of genuine MORUS MULTICAULIS, imported through France from the Philippine Islands, (erroneously supposed to have been raised in France,) and selected for Mr. W. by agents in whom he has implicit confidence. It will be sold in ounce papers at \$5.00 per paper. Orders post-paid directed to the subscriber will be duly attended to.

C. P. HUNTINGTON, Agent.
The above seed is offered with confidence as the genuine Morus Multicaulis, the growth of 1836, having been imported from the Philippine Islands, from whence the tree was originally taken to Europe. The vitality of the seed is warranted, having been fully tested in my own green house since its arrival, and germinating perfectly. It is well known that the Multicaulis seed raised in France has degenerated by mixing with other sorts. This seed comes from a source not liable to that objection.

SAM'L WHITMARSH.

H. & T. keep constantly on hand a large and extensive assortment of

Cooking, Parlour and Box STOVES;
of the most approved kinds—and among them the Rotary, but we would mention more particularly the every where celebrated Conical Stove, meaning every where they have been used.

Their stock comprises a more general assortment than ever before offered, and as most of the goods have been purchased at auction and low prices, they are enabled to offer them at wholesale and retail at prices that cannot fail to satisfy customers.

Shipping Furs and all kinds of Produce taken, and liberal prices given.

Brattleboro, Dec. 7.

VEGETABLE Strengthening Plaster.
A SURE preventive for Gout, Rheumatism, pains and weakness in the Breast, Side, Back or Limbs if applied in season. It is also highly useful in liver complaints, dyspepsia, coughs, colds, and difficulty of breathing, giving relief by its warming and soothing qualities.

This article, which has been used more than 20 years, in private practice, during which time it has proved itself an invaluable article—is now offered to the public of superior merit.

In using this plaster, no interruption in regular habits is required, as it does not render a person liable to take cold—and being already spread upon soft leather, the trouble and vexation attending the spreading of plasters by persons unacquainted with, or having no convenience for so doing, are avoided.

Persons leading sedentary lives, or those whose business require a bending or stooping position, and consequently are more or less troubled with pains in the breast, side or back, will find immediate relief by applying one of these plasters to the parts affected. Those afflicted with rheumatism will find most quieting relief in the use of these plasters, as they create a warmth and action to the parts to which they are applied.

The recommendation following is from one of our most respectable citizens:—

"Hartford, Nov. 6, 1836.

Sir—Having been afflicted for many years with pain in my head, neck, and about my shoulders, by what is called 'nervous affection,' accompanied, as I suppose, with rheumatism; I have made use of many prescriptions, to little effect. Recently observing your advertisement of the Vegetable Strengthening Plaster, I obtained one which you kindly fitted to the neck and between the shoulders, from which I have derived a quieting relief, and would cheerfully recommend the article to persons who are afflicted with similar complaints.

Respectfully, BENJ. HASTINGS."

Prepared and sold by JAMES B. GILMAN, Druggist and Apothecary, Hartford, Conn.; also for sale by DUTTON & CLARK, and at the 'RECESS,' Brattleboro, Vt.

Nov. 24, 1836.

Furniture and Feather STORE.
Opposite Burnett's Hotel.
FURNITURE from the same Manufacturers that supply the Boston Warehouses, at the Boston prices. Largest assortment in the Country.

FEATHERS of every description; BEDS; MATTRESSES, &c. CHAIRS, wholesale and retail.

Also made to order, all kinds of Cabinet Furniture.

S. W. SPOONER.
Brattleboro, June 23, 1836.

American Truss—Jaquith's Patent.
THIS Truss is now gaining the full confidence of the public, although but recently offered for sale. The grand aim of the inventor has been to secure a uniform pressure upon the Hernia, in whatever position the wearer may place himself. This object has been attained. The great error regarding the pad or cushion, has been the cause of the almost universal failure to effect cures, by the use of Hull's and other common Trusses.

The American Truss has been superior to perfection by substituting a more philosophical and manifestly judicious form and construction so that the ease and safety of the wearer is studied, together with the great ultimate object, a PERFECT CURE. Those afflicted with Hernia will do well to make a trial of this Truss, as the patient's chance of being cured is lessened, the longer a case is protracted, and casualties may greatly increase the danger.

Be particular to inquire for the American Truss, Jaquith's Patent.

For sale at Brattleboro, by WILLISTON & TYLER, and JOHN BURNHAM & Co.
Dec. 1836.

Jewett's Improved Vegetable Pills, Or German Specific.
WILL prove a sure remedy for dyspepsia, jaundice, diseases of the liver, headache, heartburn, sour stomach, loss of appetite, dizziness, weakness of the limbs, costiveness and piles. Among the many testimonials recently received of the salutary effects of these Pills the following strong proof is submitted for examination.

Extract of a letter from Rev. Mason Knappen, dated Sudbury, Vt. Sept. 23, 1828.—

"Dear Sir—It is with no ordinary interest that I undertake to recommend to the public the virtues of Jewett's Vegetable Pills or German Specific, for the cure of indigestion, etc. My own case has been one of the most unrequitable kind, having long set at defiance medical aid, dieting, exercises and the fashionable specific,—the waters of Saratoga. Being totally prostrate in mind and body, I was induced, almost without hope, to make use of the above named Pills, and was surprised to find their powerful and favorable effects. My distressing symptoms daily decreased, and I am now almost entirely cured of a most distressing complaint which for seven years had resisted a great variety of the most popular remedies.

"Yours respectfully,
MASON KNAPPEN.

"Minister of the Gospel, Sudbury, Vt.

Extract of a letter from a gentleman in Boston received through the post office, dated Sept. 14, 1828.—

"Sir, I am induced by feelings of the liveliest gratitude to make known to the public the following cure by means of Jewett's Improved Vegetable Pills or German Specific. My complaint was the Dyspepsia, attended with a pain in the side and stomach, loss of appetite, &c. I applied to several physicians, and used all the medicine, generally prescribed to persons in my situation, but they proved ineffectual. At last, by the advice of a friend who had been cured in a case similar to mine, I made trial of the above named Pills, and by implicitly following the directions, they gave me almost instant relief, and by using two boxes more, they effected a permanent cure. I am now enjoying excellent health, and would heartily recommend to those persons laboring under dyspepsia to make trial of the above medicine."

From Rev. J. D. Drummond.

With feelings of pious gratitude to heaven, (whence flows every good and precious gift,) I now come forward to unite mine to the numerous testimonies of those, who have experienced the happy effects of "Dr. Jewett's Improved Vegetable Pills." For more than two years I have suffered severely from a disease of the stomach, owing to a derangement of the digestive organs. And though I ran the recommended course of many remedies famed for their relief-giving virtues, yet all was vain and useless—until at length through the advice of a friend I consented to make trial of the above named Pills, the use of which has completely re-established my long wished for health.

J. D. DRUMMOND, Catholic Priest.
Boston, Mass. July 25, 1833.

The fresh and genuine Pills, are for sale by Williston & Co., Brattleboro.

Price 50 cents. copy 11

The Franklin Series of Standard School Books.
THIS celebrated series of School Books, consisting of the FRANKLIN PRIMER, the IMPROVED READER, the GENERAL CLASS BOOK, and the POPULAR READER, is now admitted by the most able Teachers, after full experience in the use of them, that in point of adaptation to the wants of common Schools, for bringing forward the scholar, and imparting to him an early and correct knowledge of the English language, are not exceeded by any set of School Books published in the United States.

The Popular Reader is designed for a Reading Book for the use of the highest classes in Schools and Academies throughout the United States, and is highly recommended—among others, by the Presidents of Dartmouth and Bowdoin Colleges—the School Committee of Northampton—Rev. Mr. Davis, Principal of the Westfield Academy—the New England Magazine—Rev. Mr. Hull, Principal of the Teacher's Seminary at Andover, and various others.

These valuable Books may be had of J. STEEN, Brattleboro, and of the Publisher, A. PHELPS, Greenfield, on very liberal terms.

December 1, 1836.

Also a Wooded tract three miles from said Village. Labeled excellent water privilege for any kind of manufacturing operations, with a House and Lot, called New Haven River, in Bristol, Vt. or any part of said property is offered on a credit for at least one half of the purchase money. For further particulars reference is had to Timothy Adkins, of West Granville, or to the subscriber living at Granville, on part of said premises.

RUFUS GRAVER.
Granville, Nov. 19, 1836.

Vegetable Pulmonary Balsam.
THIS truly valuable remedy has been proved itself the most valuable remedy ever discovered for Coughs, Colds, Asthma, Catarrh, Consumption, Whooping Cough, and all pulmonary affections of every kind. Its sale is steadily increasing, and the proprietors constantly receiving the most favorable accounts of its effects. The following new certificates are offered for public examination.

From Dr. Wm. Perry.
I have witnessed the effects of the Vegetable Pulmonary Balsam, and have no hesitancy in expressing it as my belief that it is a safe, convenient, and very efficacious medicine.

Respectfully yours,
WM. PERRY, M.D.
Exeter, N. H. July 17, 1832.

From Dr. Truman Abell.
For the last five years of my practice I have had the satisfaction to witness the beneficial effects of the Vegetable Pulmonary Balsam in many cases of obstinate cough, and other affections of the lungs. I would therefore confidently recommend its use in all cases of the chest as being equal, if not superior, to any other medicine within my knowledge.

TRUMAN ABELL, M.D.
Leicester, N. H. Dec. 3, 1833.

From Dr. Thomas Brown.
The Vegetable Pulmonary Balsam has been extensively used in the section of the country where I reside, for several years past, and has justly acquired a high reputation in numerous complaints. So far as my knowledge extends, it has never disappointed the reasonable expectations of those who have used it.

THOMAS BROWN, M.D.
Concord, N. H. May 11, 1833.

From Dr. Samuel Morrill.
To the Proprietors of the Vegetable Pulmonary Balsam.

I am satisfied that the Vegetable Pulmonary Balsam is a valuable medicine. It has been used in this place with complete success in asthmatic complaints of the lungs, attended with a severe cough, loss of voice, and the running much blood, which had previously many approved prescriptions. After using Balsam one week, the patient's voice returned, and he was enabled to speak audibly. The case occurred some time since, and the patient now engaged not only in active but in laborous business.

Respectfully yours, &c.
SAMUEL MORRILL.
Concord, N. H. Jan. 30, 1832.

From Mr. Samuel Everett.
In October, 1830, I was attacked with a cough accompanied with a severe pain in the side and difficulty of breathing. I resorted to several remedies, but without effect. In 1831, I was attended by a skilful physician, who subsequently received the advice of several others, but the disease steadily increased. The cough was incessant, attended with a bloody offensive expectoration; my flesh was wasted, my feet swollen, and my strength entirely reduced. In April, my case seemed hopeless. I was told by any of my friends that I could survive a month. In this month my daughter procured a bottle of the Vegetable Pulmonary Balsam, (which she had highly recommended for similar complaints) and prevailed on me to make trial of it. It was attended with the most unexpected and happy results. It gave me immediate relief, and one bottle effected a cure. I have since been free from pain in the side, and except the case of common colds.

SAMUEL EVERETT.
Boston, March 1, 1832.

COUNTERFEITS!! BEWARE OF IMPOSITION.
Each genuine bottle is inclosed in a wrapper, on which is a yellow label signed Sampson Reid.

NONE OTHER CAN BE GENUINE.
The great celebrity of the Vegetable Pulmonary Balsam has been the cause of attempts to introduce spurious imitations, which, by partially assuming the name of the genuine, are calculated to mislead and deceive the public. Among these imitations are the "American Pulmonary Balsam," "Vegetable Pulmonary Balsam," "Pulmonary Balsam," and others. Purchasers should be careful for the TRUE article by its wrapper, and the name of the PROPRIETORS, WILLISTON & TYLER, and see that it has the marks and the nature of the GENUINE.

Each bottle and seal is stamped WILLISTON & TYLER'S PULMONARY BALSAM. For sale by Williston & Co., Brattleboro.
